 DDC Strategic Environmental Assessment 2018

Foreword

Neighbourhood Development Plans come out of the Government's determination to ensure local communities are closely involved in the decisions which affect them. The Staverton Neighbourhood Development Plan (SNDP) has been developed to establish a vision for the Parish and to help deliver the local community's aspirations and needs for the plan period 2018 – 2029. Our Neighbourhood Development plan is a statutory document that will be incorporated into the Northamptonshire Development Plan and must be used by them to determine planning policies.

Our plan has been produced by local residents, with the support of a SNDP committee, using the views of the residents of Staverton Parish. The SNDP committee has consulted and listened to the community, local businesses and organisations on a wide range of issues that will influence the wellbeing, sustainability and long term preservation of our rural community. Every effort has been made to ensure the views and policies contained in this document reflect those of the majority of residents in Staverton Parish.

A Neighbourhood Development Plan has many benefits. The SNDP has been produced to:-

- Protect the village from uncontrolled, large scale, or poorly placed development and
- Ensure that any development is sympathetic to, and responds effectively to the look and feel of the village

The committee received 145 separate responses to the questionnaire undertaken. In total the responses contained approximately 500 comments from residents and businesses. The comments were reviewed by the committee. A full list of these comments can be found in the Consultation Statement.

An electronic copy of this plan, the draft Consultation Report, and suite of supporting documents can be found online at www.stavertonparish.com

The Parish Council would like to thank the members of the committee and pay tribute to their work since June 2015. The Parish Council is also grateful for the help and engagement of many others in the village without which it would not have been possible to produce this SNDP.

Tony Glover
Chair, Staverton Parish Council

Section 1 – Introduction and Background

Introduction

- 1.1 The Localism Act 2011 introduced new statutory rights whereby communities were given powers through the development of Neighbourhood Plans, to shape future development in their area. The intention behind this act was to give communities more of a say in the development of their local Parish (within certain limits and parameters). Decision making on future development within that Designated Neighbourhood Area (DNA) was passed down from Local Government to local Communities.

Purpose

- 1.2 The purpose of the SNDP is to ensure that the Parishioners of Staverton have the opportunity to influence what, where and how future development should take place within our Designated Neighbourhood Area.
- 1.3 This has been achieved by firstly setting out a Vision for our Area, which was agreed by Parishioners. The Vision was then split into its constituent parts to derive Core Objectives, which were then further broken down into underpinning Goals. The Goals were translated into a practical set of Policies, that seek to directly influence any future development within the Designated Neighbourhood Area. Policies have all been informed by data derived from the Questionnaire, delivered to every household in the Parish. The Process as described, is fully explained in Section 2 of this plan.
- 1.4 When adopted the SNDP will become part of the development plan within the West Northamptonshire Joint Core Strategy 2017 and the saved policies of the Daventry District Council local plan 1997, and will form part of the Daventry Local Plan. The policies and proposal contained within it, will be used in the determination of new planning applications, and appeals by the Local Planning Authority. Consequently, unless material considerations indicate otherwise, decisions on whether or not to grant planning permission in the Designated Neighbourhood Area will need to be made in accordance with the Neighbourhood Plan.

What is a Neighbourhood Plan?

- 1.5 The SNDP is a tool which uses planning policies to control the use of land by which our Community can develop a local Planning Framework for guiding the future development, enhancement of existing assets, and conservation within our Parish. It contains community led Policies derived from a programme of community engagement, thus ensuring that the views, aspirations, wants and needs of Parishioners are formally represented. It will inform where future development

should be located and the size and pace of any such development along with the policies contained within this plan.

How will it work?

- 1.6 The SNDP has been developed following a process laid down by Government. This process must include two six week periods of consultation on the draft plan, and culminate in a referendum.
- 1.7 If 50% of those voting in the referendum vote 'Yes', then Daventry District Council are required to formally adopt the plan. They will be obliged by law to be guided by it when considering future development in the area. If there is a majority 'No' vote, then the council will take no further action. The Parish Council would need to decide whether to investigate the reason/s behind a majority 'No' vote and potentially opt for redrafting the plan accordingly.
- 1.8 There are five key stages to Neighbourhood Development Planning as follows:-
 - Stage 1: Defining the Designated Neighbourhood Area
 - Stage 2: Preparing the plan
 - Stage 3: Consultation
 - Stage 4: Pre-Submission Consultation
 - Stage 5: Examination
 - Stage 6: Referendum
 - Stage 7: Making a Neighbourhood Plan
- 1.9 These stages are covered in detail within Section 2 of this plan.

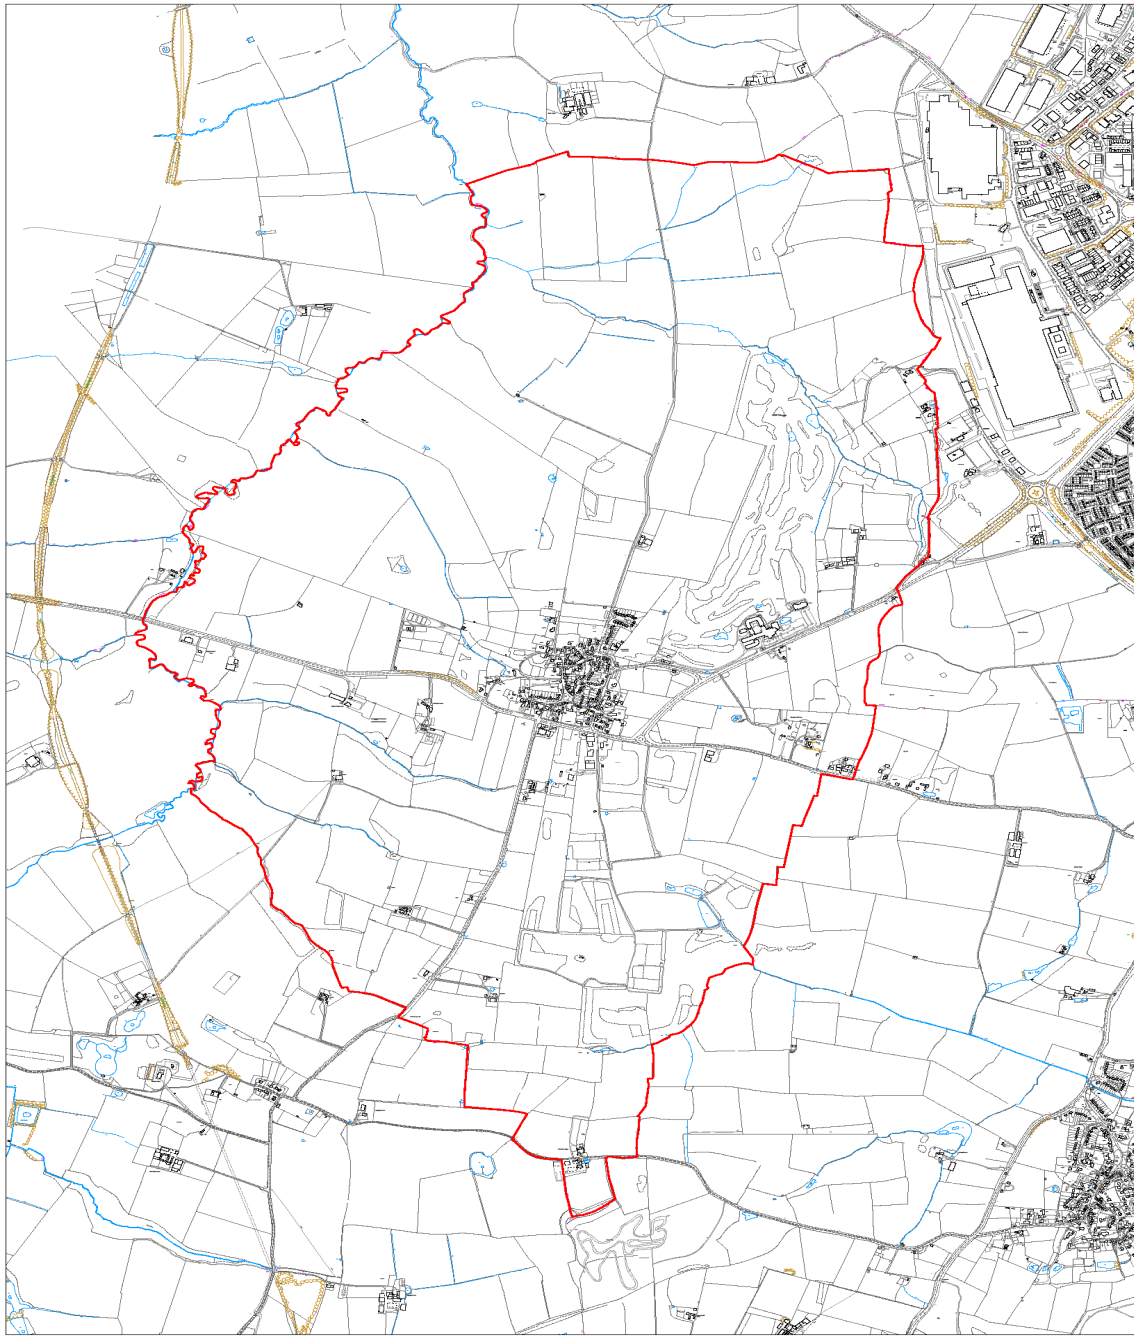

Qualifying body

- 1.10 Staverton Parish Council (SPC) are the Qualifying body for this Neighbourhood Development Plan. The Research, Public Consultations and Plan writing were undertaken initially by a working group, then by a committee of the Parish Council, namely SNDP committee and completed by the Parish Council. The group/committee comprised of Parish Councillors and Volunteers from within the Parish. The composition of the group has changed over time. A full list of members is listed in Appendix 4.

Neighbourhood area

- 1.11 As the qualifying body, Staverton Parish Council approached Daventry District Council (DDC) to designate the Designated Neighbourhood Area in 2015. The application was submitted in May 2015, and following consultation on the application Daventry District Council designated Staverton Parish as a Neighbourhood Area in May 2015. The Staverton Parish Designated Neighbourhood Area is shown on Map 1 **outlined in red.**

Map 1 - Staverton Parish Designated Neighbourhood Area

Staverton Neighbourhood Area:

Crown copyright and database rights 2011 Ordnance Survey 100023735.

Neighbourhood area

1.12 The SNDP must meet certain 'basic conditions':-

- 'Having a regard to national policies and advice contained in guidance issued by the Secretary of State it is appropriate to make the Neighbourhood Plan'
- 'The Making of the Neighbourhood Plan contributes to the achievement of sustainable development'
- 'The Making of the Neighbourhood Plan is in general conformity with strategic policies contained in the development plan for the area of the authority (or any part of that area)'
- 'The Making of the Neighbourhood Plan does not breach, and is otherwise compatible with EU obligations'
- 'Prescribed conditions are met in relation to the Neighbourhood Plan and prescribed matters have been compiled in connection to the proposal for the Neighbourhood Plan'

1.13 Adherence to these conditions ensures that an appropriate balance is struck between a community influencing future development within their Designated Neighbourhood Area by developing a Neighbourhood Development Plan, whilst ensuring it does not inappropriately constrain the delivery of important strategic policies for the local area.

National Policies

1.14 At a National level the SNDP has taken into account relevant policies contained in the National Planning Policy Framework (NPPF), and the National Planning Policy Guidance (NPPG).

Local Policies

1.15 Staverton Parish is situated within the administrative area of Daventry District Council. In turn Daventry District Council sits within the County of Northamptonshire, which is administered by Northampton County Council (NCC). Northampton County Council are responsible for setting County wide policies, and Daventry District Council is responsible for determining local policies. In developing the SNDP reference has therefore been made to the West Northamptonshire Joint Core Strategy, and the Saved Policies within the Daventry District Council Local Plan (1997), due to be replaced by policies within the emerging Daventry Settlements and Countryside Local Plan.

Sustainable Development

1.16 The Government's approach to Sustainable Development is set out in the National Planning Policy Framework. The SNDP contributes to the achievement of Sustainable Development through policies that advocate the following:-

- Provision of a mix of housing types, based on meeting local need
- Support for high quality build design
- Appropriate transport provision, including accessible public transport, cycle facilities and safe and convenient pedestrian routes
- Upgrading of infrastructure to support and encourage home working
- Support for 'green' development that incorporates facilities to encourage recycling, water collection, local energy generation, etc.
- Retention and/or enhancement of valued Community assets
- Protection and enhancement of wildlife areas, open green spaces, Conservation Area, Special Landscape Areas, and measures to support biodiversity
- Conservation of historic buildings and environments

European Union Obligation

- 1.17 The plan was considered as part of an assessment of compliance with the basic conditions, and the plan was found to conform to the appropriate European Union Obligations.
- 1.18 The Environmental Assessment of Plans and Programmes Regulations 2004 and the Conservation of Habitats and Species Regulations 2017, have also been complied with as detailed in the Strategic Environmental Assessment (SEA) screening undertaken by Daventry District Council.

Human Rights requirements & Equality

- 1.19 The plan was considered as part of an assessment of compliance with the basic conditions, and the plan was found to conform to the appropriate Human Rights requirements and the Staverton Equality and Diversity statement which can be found on Staverton Parish Council Website www.stavertonparish.com.

Plan period, monitoring and review

- 1.20 The period covered by the SNDP is from 2018 up to 2029. This is in line with the plan period for the West Northamptonshire Joint Core Strategy, and the emerging Settlements and Countryside Local Plan. This enables the SNDP to be in general conformity with the policies and time period stated within this plan. It therefore sets out our housing development requirements for the period up to 2029.

Section 2 – Process Summary

STAGE 1 - MAY 2015 – Defining the Designated Neighbourhood Area

- 2.1 **8th May 2015** Daventry District Council confirmed the Neighbourhood Area Designation and the consultation of residents process commenced at the Annual Parish Meeting.

STAGE 2 - JUNE 2015 to JUNE 2016 – Preparing the draft plan

- 2.2 For the next year of the plans production, the local community were engaged with and formally consulted in order to gather baseline information. Details of how this was undertaken can be found in the Staverton Consultation Statement 2018.
- 2.3 A 'Call for sites' exercise was undertaken with options being identified and assessed, details of which can be found in the Staverton Site Assessment Statement 2017.
- 2.4 During this time a Village Confines Map was produced. Detail of how the Village Confines map was produced can be found in paragraph 6.33 of this plan and the Staverton Village Confines Statement 2017.

STAGE 3 - JULY 2016 to December 2017 – Consultation

- 2.5 Various modes of communication were used to undertake consultation with the Parish, details of which can be found in the Staverton Consultation Statement 2018 and examples of which are listed below:
- Parish Council Open Forum
 - Parish Notice Board
 - Parish News Magazine
 - Parish Newsletter
 - Parish Website
 - Consultation events
 - Parish Vote
 - Parish Questionnaire
 - Housing Needs Survey
- 2.6 There was liaison with Daventry District Council throughout as the draft plan emerged.
- 2.7 Goals, Objectives and Policies were produced, underpinned from the analysis of the questionnaire, details of which can be found in the Staverton Parish Questionnaire Statement 2017 and the Staverton Consultation Document 2017.
- 2.8 Daventry District Council was instructed to undertake a Housing Needs Survey and Staverton Parish Council analysed the Staverton Parish Questionnaire 2017 to produce a Staverton Housing Needs Statement 2017.

- 2.9 External consultants (AECOM) were engaged to undertake an independent report regarding (1) Suitability of sites for inclusion in the plan (2) Review of the Parish Council's sites assessment statement. Following receipt of the AECOM report the Parish Council selected two sites to go forward in the plan.
- 2.10 External consultants (KIRKWELLS) were engaged to assist with Regulation 14 process and to undertake a consultation event regarding the proposal to include within the plan allocated sites, where the sites would be, and any community benefit on offer.
- 2.11 Following the consultation exercise and ascertaining that opinion is genuinely openly divided on the question of whether to include sites within the plan, due to there being a majority in favour of no sites it was decided to progress the plan without naming sites.
- 2.12 DDC published their consultation on the Settlements & Countryside Local Plan (Pt 2). As a result, the plan was cross checked against the emerging policies and amendments made.

January 2018 to February 2018 - Producing the Draft plan

- 2.13 External Consultants were engaged to undertake a Health Check of the First Draft Plan before it was subjected to the regulation 14 process and submitted to DDC.
- 2.14 Daventry District Council undertook a Strategic Environmental Assessment screening process with the deadline for receipt of assessments being the 9th February 2018. Statutory consultees were consulted with for a 4 week period.
- 2.15 February 2018 the First Draft plan was amended in light of comments received from DDC, and both sets of consultants advising the Parish Council.
- 2.16 At an extraordinary meeting on the 20th February 2018 the Parish Council approved the Draft plan to consult on and agreed to the commencement of the Regulation 14 process.
- 2.17 Also, at the extraordinary meeting it was agreed to put up publicity around the Parish – posters/website to highlight the oncoming commencement of regulation 14 and to send an email to all interested parties, with statutory and local connections.

STAGE 4 - March to April 2018 – Pre-Submission Consultation Regulation 14

- 2.18 During March it was agreed a letter, response form and Parish Newsletter containing an executive summary of the plan be delivered to every household in the Parish
- 2.19 During the six week consultation period an open day was scheduled to be held in Village Hall with display boards facilitated by Kirkwells the Parish Council consultants. In addition three further drop in events were arranged to be held by the Parish Council which would enable villagers to ask questions with regard to the Draft plan.

- 2.20 Mid-April - Consultation responses will be recorded, decided on and included in the Consultation Statement and amendments made to the draft plan.
- 2.21 At a May Parish Council meeting the plan is scheduled to be approved for submission to DDC along with the Basic Conditions & Consultation Statements.

STAGE 5 - May 2018 to July 2018 – STAGE 5 examination Regulation 16

- 2.22 Jun 2018 - Further 6 weeks of consultation arranged by DDC. Thereafter DDC will arrange for an independent examiner. This may mean a wait of three months. The plan may also have to be amended in the light of the examiner's comments.

STAGE 6 - August 2018 to November/December 2018 –Referendum

- 2.23 A referendum will most likely be sometime after Sept 2018 as 28 working days have to be allowed for it to be publicised by DDC, therefore, the referendum at its earliest will be Nov/Dec 2018.

Ongoing Review - 2019

- 2.24 It is the intention of the Parish Council to have a review/refresh of the document once adopted every four years after the plan has been made (one in a term of office) as it would be useful in updating the plan in line with key local planning policy changes.
- 2.25 If the plan is made by 2019 the first refresh would be in 2023, then subsequently in 2027 in readiness for the plan period end.

Section 3 – Vision, Goals & Objectives

Consultation

- 3.1 The Vision Statement and Objectives were developed with the local community utilising data from the questionnaire and subsequent consultation events.

- 3.2 The overwhelming view from Parishioners is that Staverton's strength is that it is a small rural village, which should retain its character. The Parishioners are not against small scale change in order to remain sustainable.

Vision Statement

- 3.3 In order to develop a vision, the question was posed 'What gives Staverton its character? - "That it is a small traditional rural village surrounded by agricultural land and other small villages with a strong community spirit"
- 3.4 The above information was brought together into a vision statement that reflects all elements:

'A sustainable cohesive community that retains its character, rural surroundings and green spaces, whilst embracing the positive benefits appropriate development can bring'

- 3.5 *The Vision statement was presented to Parishioners at a consultation event where it was supported.*

Objectives & Goals

- 3.6 The objectives were derived from the Vision Statement and broken down into three Core Objectives:
- Sustainable Community
 - Protection of the Environment
 - Management of change for positive benefit (Sustainable development)
- 3.7 Underpinning these three Core Objectives a number of key objectives and goals were defined as detailed in the table in the Parish Questionnaire Statement 2017 which

can be found on the Parish Website www.stavertonparish.com/councils, all of which are listed in the tables on pages 13 to 15

- 3.8 The Consultation Document also demonstrates how the plan objectives were linked to sustainable development in an implicit way within section 5 of the document.

Core Objective (1) - Sustainable Community

Main comments raised by local people during the consultation process

- To provide for some smaller homes & bungalows within Staverton village
- New homes to be distributed over several small sites, preferably individual plots
- Sites would be chosen to facilitate social integration into Staverton village
- To provide for up to ten new dwellings on a site

GOAL(1) – To provide housing that meets the need of the local community

KEY OBJECTIVE:

- To support small scale housing development that meets identified local needs
- To provide for a mix of housing types including smaller homes, particularly for elderly villagers wishing to move to a more suitable home within Staverton

SUPPORTING POLICIES: West Northants Joint Core Strategy R1 HS22

GOAL (2) – To protect community cohesion within the village

KEY OBJECTIVE:

- To provide for small amount of housing growth
- That any development is sited to fully integrate into Staverton village
- To provide for organic growth within Staverton village
- That each new development is suitably small in scale
- That size, mix and type of new build is suitable with respect to it's location
- To reject large scale developments that could adversely affect the strong sense of community within the village

SUPPORTING POLICIES: West Northants Joint Core Strategy R1 Daventry Local Plan HS22

GOAL (3) – To encourage preferential access to new homes for people with a strong local connection

KEY OBJECTIVE:

- To recognise that changing demographics require a corresponding re-balance of suitable homes in Staverton
- To provide for a balanced mix of new housing corresponding to need
- To provide for a balanced mix of tenure corresponding to need
- Provide for accessibility to homes for all sectors of a balanced and inclusive community

SUPPORTING POLICIES: National Planning Policy Framework

Goal (4) - To retain existing valued amenities

KEY OBJECTIVE:

- To support the provision of continued access to local community services and facilities (including educational, public transport, utilities and amenities)
- To support the capacity of those public services in line with growth from new housing
- To resist any proposed loss of valued amenities resulting from any proposed new development

SUPPORTING POLICIES: HS22 GN2 (a)

Goal (5) - To support the provision of mobile and broadband provision for the benefit of the community

KEY OBJECTIVE:

- To ensure that all financial contributions received by Staverton Parish Council from developments (S106 and/or CIL) are used on projects and initiatives that meet the identified needs of the community

SUPPORTING POLICIES: GN2 (p)

Core Objective (2) – Protection of the Environment

Main comments raised by local people during the consultation process

- To prioritise the wellbeing of the natural environment in decision making
- To protect existing and encourage the creation of new local wildlife habitats
- To take every opportunity to safeguard the rural environment
- To value and protect all public open spaces in Staverton
- To see that any new development is built to high ecological standards
- To value and protect our natural and built inheritance throughout Staverton Parish

GOAL (6) – To retain the rural character and cohesive nature of the village

KEY OBJECTIVE:

- That any new development integrates into Staverton by design
- That design properly reflects the distinctive character of Staverton
- To support the use of only high quality building materials e.g. stone or brick
- There be provision for mixed developments of up to 10 new homes on a site
- That each home reflects the character and feel of the immediate locality
- To support the provision of open green spaces in any new development

SUPPORTING POLICIES:
West Northants
Joint Core
Strategy
S1
R1
HS22
EN1
EN18
EM13
GN1 (e)

GOAL (7) – To have a friendly and safe environment

KEY OBJECTIVE:

- To maintain the existing low crime, secure and peaceful environment
- To support the integration of new housing into the existing community
- To provide for improved management of intrusive traffic on the A425
- To support reduced speed limits on the A425 throughout Staverton Parish

SUPPORTING POLICIES:
National Planning
Policy Framework

GOAL (8) – To retain the open spaces in the village

KEY OBJECTIVE:

- To preserve green spaces within the village
- To protect and enhance Staverton's open spaces e.g. Village Green
- To support the provision of green space within any new development

SUPPORTING POLICIES:
HS22
EN1

GOAL (9) – To preserve the special landscape area

KEY OBJECTIVE:

- To protect, enhance and conserve the surrounding countryside, special landscape area and important views
- To protect and enhance the historic environment of Staverton
- To ensure any new development respects Staverton's Special Landscape Area status

SUPPORTING POLICIES:
HS22
EN1
EM13

Core Objective (3) – Management of change for the positive benefit (Sustainable development)

Main comments raised by local people during the consultation process

- To support the provision of high quality IT services throughout Staverton Parish
- To provide for access to training and services
- To spend or invest any Community Infrastructure Levy for the benefit of the community
- To reflect the changing demographic in Staverton in the provision of suitable housing development
- To ensure the designated area status of Staverton

GOAL (10) – To influence development for positive benefit

KEY OBJECTIVE:

- To support the provision of recreational, play areas and facilities for children
- To support the protection and preservation of existing bridle paths, public footpaths and high quality agricultural land in the Parish
- To encourage support for existing village amenities e.g. Village Hall, St Mary The Virgin Church, Playing field, and all green spaces
- That open land that is important to the character and form of the village remains protected
- To provide only for development sites of up to ten dwellings that will integrate into Staverton village

SUPPORTING POLICIES:

West Northants
Joint Core
Strategy
R1
Daventry Local
Plan
HS22
EN1
GN2 (a)

GOAL (11) – To ensure that the appropriate infrastructure is in place to support the existing and future needs of the Village

KEY OBJECTIVE:

- That utilities and service providers address existing local issues in advance of any new development (currently the sewage system)
- That traffic flow in Staverton is integral in the design of any new development
- That all new development has provision for high speed broadband
- That good lighting, dog bins, waste bins are provided on any new housing development
- To positively support the development of improved mobile communications
- That enough off road parking for all residents is provided in every new housing development
- To promote usage of our restricted public transport

SUPPORTING POLICIES:

GN2 (d)

GOAL (12) – To minimise the impact of any new development on the environment

KEY OBJECTIVE:

- To support the protection of mature native trees and hedges
- To support the development of Eco friendly housing
- To support the reduction of the carbon footprint of the village
- To support change to parking arrangements in Staverton that benefit the community

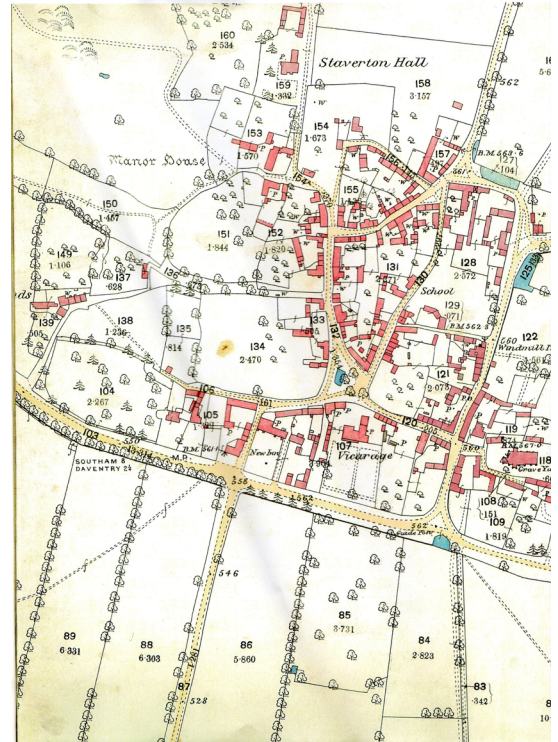

SUPPORTING POLICIES:

HS22
EN1
GN1 (b)

Section 4 – Staverton Our Village

Our History

- 4.1 Staverton, or otherwise “Stave Town” as referred to in the Domesday Book, took its name from the compounds. The town became established on high ground around an Anglo Saxon Burial Ground and then the early makings of the Anglo Saxon Church (c800AD).
- 4.2 Mid-way between the Shire Towns of Northampton and Warwick, the settlement was well placed for its trade. The well-trod road through the Town later became known as the Portal Road as the road between the respective portcullis of the two castles built after the Norman invasion.
- 4.3 As well as the Church, perhaps the oldest remaining building in the Town is part of the Manor House which although reduced in stature still retains an Anglo Saxon Cellar and remnants of the house that previously stood on the same footprint.
- 4.4 The settlement developed and grew

Map 2 - Extract from 1885 Ordnance Survey Map

predominantly supported by the agriculture in the surrounding fields. Evidence of substantial ridge and furrow can still be found in the former open ground of the underling fields. Apart from a few outlying Farmhouses and yards, the Town formed a hub of as many as 12 Farmhouses, each with their own yards, outhouses, paddocks, orchards and farm cottages, along with several small holder's homes and yards. Some of these original buildings still remain, all be it converted in to modern homes. Their construction in

local Jurassic Lime Stone and sited on the shallow rock of the natural terrain forms their sound foundations. Although older examples still exist, the majority of these remaining buildings were built c1500/1600 with several additions just after the end of the English Civil War. It is apparent that the then Farmers enjoyed an element of wealth which is evident from individual surviving architectural features, not least of which are various examples of stone oriel windows.

- 4.5 The Town by now referred to as “Staton” or “Statun” perhaps with a silent second “t”, extended to the north of the Church with a collection of dwellings and hovels where, *“Upon a Tuesday in 1720 between the hours of 12 and 1.00 at night there happened at this town a sudden and dreadful fire attended by a very strong southern wind, and continued vehement and extreme for about 3 hours. It began at the south end of the town, destroying all before it, consuming 22 dwelling houses besides ricks of grain, barns, stables, outhouses, and other buildings and in all probability had destroyed the whole town but for the hasty but happy falling of a shower of rain upon the virulency of the wind ceased and the rage of the flames abated”*. The fire was estimated to have caused damage to the extent of £3,000. Following this event, the area in question was not redeveloped and the populous were all relocated within the Hub where it remains today. Evidence of the ruins left from the fire can still be seen in the North wall of the Church Yard, the West wall of the former Home Farm Yard East of Daventry Road and in the open fields adjacent to the Church.
- 4.6 Although the Town had previously enclosed itself with various ancient enclosures around its periphery, the Enclosure Act of 1773 and the consequential enclosure of the entire Parish brought about a considerable change in the farming community. Ownership of land became secured and the farming activities of the smaller farmer became relocated and consolidated to a specific location in lieu of their scattered holdings throughout the Parish. The renewed prosperity that followed over the next century or so established a number of Historic Parish Charities for the benefit of the less fortunate. Funded by the endowments of former inhabitants they provided, fuel for the poor, support for those in need, and the beginnings of education for the young. Although now amalgamated, several of these charities remain active today in the bodies of: the Staverton Education Foundation, the Reading Room Trust, and the Staverton Relief in Need.
- 4.7 By the end of the two World Wars the Town (now called a Village) had evolved to rely less on Agriculture and more on the developing neighbouring Industry. 1950 onwards saw the building of the several then Council Houses in the Village to house many of the growing local population. Around this time came the main drains, running water and street lighting. Since then the Village has successfully absorbed a further amount of ‘in character’ natural growth as a restricted infill Village. In addition to this many of the former Farm yards have successfully lent themselves as small developments of either tasteful new houses or the conversion of the original farm buildings which remain in keeping. A practice that the village would wish to retain.
- 4.8 There is too much Village History to give justice in these few pages. The overwhelming charm of Staverton has been its sense of well-being both in its architecture, its tranquil location in its surrounding countryside and its charity to others. A pleasant village community.

Our Growth

- 4.9 Since that time the Village has successfully absorbed a further amount of organic growth, as a restricted infill Village. There are a number of examples of moderate growth that have taken place over recent years. In 1984 three 3 bedroom terrace Cottages and one 3

bedroom semi-detached house were built in Glebe Lane. Church Fields was built in 1987 and consists of five 4 bedroom houses, with one 5 bedroom property. Windmill Gardens was built in 1997 and consists of two 4 bedroom Dormer Bungalows, One 4 bedroom Barn conversion, and four 4 bedroom houses. In 2003 one 6 bedroom house and one 4 bedroom house, were built on Daventry Road, in part of the former gardens of Vine Tree House. In 2008 a 3 bedroom detached property was built within the grounds of an existing property in Manor Road. Also in 2008 a 2 bedroom Bungalow was built within the existing grounds of a property in Home Close. More recently in 2013 a 3 bedroom Bungalow and 4 bedroom houses were built on the brown field site of an unused metal works, on Daventry Road. All of these developments were designed to blend into the character of the existing village, being predominately built in stone, or high quality brick. The small nature of each development has ensured the successful integration of new residents, and the diversity of design promotes sustainability by providing housing to meet a range of existing and future needs.

Section 5 – Conservation Area

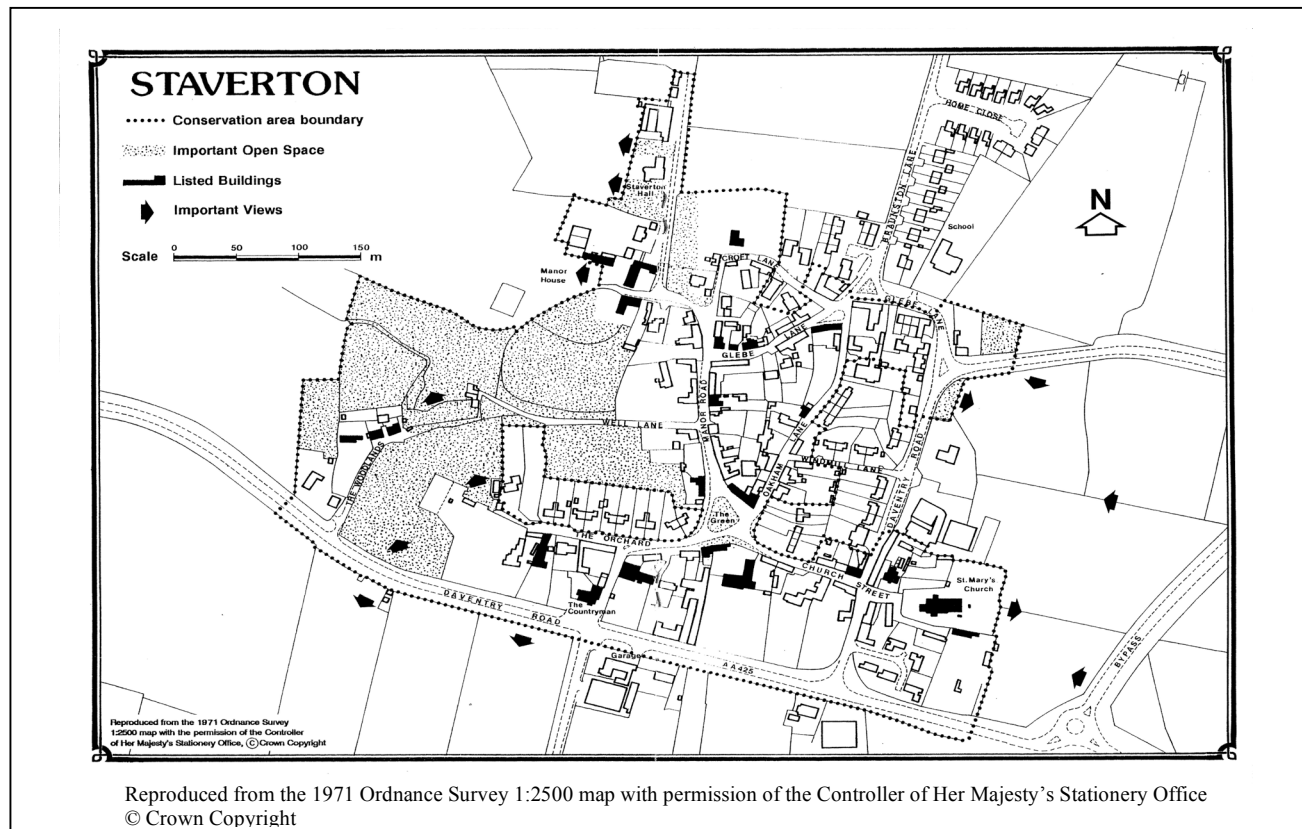

Staverton village setting

- 5.1 Following a Landscape Character Assessment, Staverton Parish was placed into the category of 'Staverton Hills' with elevations of over 500ft above sea level. The rolling land to the west descends to, and looks out over the plains of Warwickshire, making this one of the most attractive views in Northamptonshire.
- 5.2 In addition, parts of this landscape, namely, Staverton Parish was previously designated a 'Special Landscape Area' by Daventry District Council in date which placed a responsibility on all to protect and enhance its special qualities.

Built Environment

- 5.3 The village Conservation Area was designated in 1990. Within the conservation area are 27 listed buildings that have been judged to be of architectural or historic interest. Map 3 below details the conservation area as designated in 1990:

Map 3 – Village Conservation Area

Open Spaces, Village Green & Landmarks

- 5.4 The village green is the most significant green space in the centre of the conservation area. The limited open space in the village gives a sense of enclosure and identity. The Open spaces/views statement details the village greens, pocket park and playing field all of which form an important green space near the periphery of the village.

- 5.5 St Mary The Virgin 13th century church is dominant at the edge of the village. Its Norman tower is a landmark to the south east. The churchyard contains listed tombs and graves, and there is a war memorial in the Church.
- 5.6 The Countryman public house is a landmark on the south side of the village.

Buildings

- 5.7 The conservation area contains a wide range of buildings from medieval to modern. Most buildings are two storeys with rooflines of varying pitches and heights which adds to the historic character of the village. The roofs, many of which used to be thatch are now mostly tiled. Some of the houses, as well as the church and a number of features in the churchyard are listed. The older buildings generally open onto the street. Most of the properties built after 1918 are built further back creating front gardens. The village buildings are now predominantly residential, the centrally placed shop and the post office having closed down. Some other businesses, including Skylark farm and garage are located on the western edge of the village.
- 5.8 The traditional and historically important buildings and stone boundary walls, form the core elements in the conservation area and reflect the general vernacular style of building in this part of Northamptonshire.

Conservation Status

- 5.9 Section 69 of the 1990 Listed Buildings and Conservation Areas Act, imposed a duty on local planning authorities to designate as a Conservation Area any “areas of special architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance.” Conservation Areas also have special interest which warrant particular protection from inappropriate development, and require a high regard to be given towards the preservation or enhancement of their overall character. Government guidance for conservation areas aims to harmonise any new development with its neighbours and to take full advantage of “group value” (the interrelationship of buildings in close proximity). Thus development and other land use changes which fail to preserve or enhance the character of the Conservation Area should be resisted.

- 5.10 Conservation Area Status does not prevent future development, but provides greater control over development and protection of trees.
- 5.11 The Conservation policy below sets out clear and simple guidance for the design of all development in the village, based on its character, its conservation status, and its harmony within its setting, and whether it makes a positive contribution to the immediate environment.
- 5.12 The nature of the development in the conservation area creates a high degree of enclosure and identity within the village. Views out from the centre are restricted, which serves to promote the feeling of enclosure and identity. The combination of historic buildings, group value, open space and mature landscaping is considered worthy of protection and have been reviewed as part of the production of this plan.

PE 3 Conservation Policy

Policy PE3 Conservation Policy

Development proposals in or near a conservation area would be required to pay special attention to the desirability of preserving or enhancing the character or appearance of the conservation area, within its rural setting. Any proposals, which would harm the appearance or character of the conservation area, and which would harm the community cohesion should not be approved. In order to avoid harm to the conservation area, any development proposal will need to:

- a Respect the character or appearance of the locality by reason of their scale and proportion
- b Meet the needs of the community
- c Have regard to the historic interest and/or architectural detailing of existing buildings
- d Utilise materials appropriate to the locality and avoid the use of non- traditional materials unless they are a suitable alternative or would not detract from the overall appearance of the locality
- e Safeguard trees of amenity value, traditional hedgerows and historic boundary stone walls

Section 6 – Policies

- 6.1 Staverton Parish Council is preparing a Neighbourhood Development Plan for the Designated Neighbourhood Area under the provision of the Localism Act 2011 and the Neighbourhood Planning (General) Regulations 2012.
- 6.2 The Designated Neighbourhood Area covered by the SNDP is shown in Map 1 page 5.
- 6.3 Neighbourhood plans provide local communities with the chance to shape the future development of their area. Once approved at referendum the Plan becomes a statutory part of the SNDP for the Designated Neighbourhood Area and will carry significant weight in how planning applications are decided.
- 6.4 In addition, the SNDP must be able to show that it has properly consulted local people and other relevant organisations during the process of making the plan and has followed regulations. Section 2 of the plan summarises how we have engaged with the community, with the Consultation Statement giving the detail. Many methods of communication were deployed for example open forums at Parish Council Meetings, specific consultation events, use of website and village Notice Boards being just a few. The Independent Health Check undertaken on the plan by external consultants confirmed there was no evidence to indicate that pre-submission consultation has not been carried out in line with the 2012 Regulations or that there hasn't been appropriate consultation in line with the scale, coverage and complexity of the plan area. In addition the Parish Council's consultants Kirkwells felt the Parish Council had undertaken far more consultation than many other plan makers.
- 6.5 This section sets out the planning policies to guide development in Staverton up to 2029. The vision for Staverton developed in this plan is to have:

'A sustainable cohesive community that retains its character, rural surroundings and green spaces, whilst embracing the positive benefits appropriate development can bring'

- 6.6 To deliver the vision three Core objectives have emerged which are supported by key objectives, and goals:

Core Objective (1) Sustainable Community

Core Objective (2) Protection of the Environment

Core Objective (3) Management of change for the positive benefit (Sustainable development)

- 6.7 The policies and proposals contained within this plan have been divided into the above three core objectives. They should be read in conjunction with the relevant design policies of Daventry District Council and West Northamptonshire Joint Core Strategy 2017.

Table 1 – Policies		
CORE OBJECTIVE	REF	POLICY
(1) To promote a Sustainable Community	SC1	Protection and Enhancement of Local Community Assets & Recreational Facilities policy
	SC2	Housing (inclusive of affordable housing and local connection) policy
	SC3	Access (inclusive of footpaths, cycle ways, bridle ways & connectivity) policy
(2) Protection of the Environment	PE1	Protecting and enhancing the landscape and character policy
	PE2	Open/Green Spaces policy
	PE3	Conservation Area policy
(3) Management of change for the positive benefit	MC1	Development Policy
	MC2	Development Design Policy

6.8 Each policy has a Policy Background & Summary which provides an explanation of the policy and what it is seeking to achieve.

6.9 The policies are presented within pink boxes in this document. It is against these policies that all planning applications will be assessed.

SC 1 Protection and Enhancement of Local Community Assets and Recreational Facilities policy

6.10 Policy Background and Summary

For a village such as Staverton, the number and range of community facilities are comparatively limited.

Table 2 – Village Assets		
Assets in the ownership/control of the Parish Council	Ecumenical Assets	Privately owned community facilities
Playing Field	Staverton C of E Primary School	Skylarks Fields Café
Daventry Road Allotments	St Mary The Virgin Church	Countryman Public House
Village Hall		De Vere Staverton Estate (Leisure Facility & Golf Course)
Pocket Park Junction Daventry Road/Glebe Lane		Green Acres
Village Green		Staverton Veterinary Surgery
		Telephone Box

6.11 In order for Staverton to be a functioning sustainable village it is important that it retains it's community facilities where possible. In order to achieve this, the SNDP Committee has made a presumption in favour of the protection of existing facilities. To lose any of these amenities would have a negative impact on the sustainability

of Staverton, as a rural village. As at January 2018 the following facilities were present in the village:

- 6.12 The **Staverton Playing Field** is located in Braunston Lane and has an assortment of play items including swings, roundabout, seesaw, basketball, climbing structure etc. There is also a football pitch, seating and picnic tables. Recent improvements have been made facilitated by a Tesco grant in 2016.

- 6.13 Most days children can be seen playing/enjoying the playing field and therefore it is considered to be an important resource. In addition, it is often used for community events. The field also provides the valuable space required to maintain and enhance opportunities for people to participate in outside informal activities, which in turn contributes to maintaining an active and healthy community which secures far wider reaching benefits.

- 6.14 The land was purchased by the Parish Council from the Official Receiver of a liquidated developer. The Land is subject to a covenant in favour of the Receiver and his Creditors which prevents the erection of any buildings and restricts the use only as a Playing Field.

- 6.15 **Staverton allotments** serve the community and are located on Daventry Road. They are well used and there is a waiting list. In addition they are considered to be an important historic asset for the community, and an important facility that promotes self-sufficiency and a healthy lifestyle. The Parish Council also has a legal duty to provide this facility.

- 6.16 Staverton is fortunate in that it has a well-used and 'loved' **village hall** that is considered to be at the heart of the community, located in the centre of the village. Although there are issues with parking 74% of the respondents to the Parish questionnaire felt the village hall would not be used more if it moved location. It is a financially self-sufficient entity, that is not a burden on the taxpayers of the village. In 1934 the land was donated to the village and the building was paid for with local fundraising events. It is currently managed by a committee of Trustees.

- 6.17 The **Pocket Park** was established by the Parish Council in 1993 on waste ground which was the site of a former Village Pond. After the required length of time the Parish Council secured Possessory Title to the Site. The site is too small for physical activity, but instead provides a place to sit outdoors along with providing an area where wildlife such as birds can establish a foothold.

- 6.18 **St Mary the Virgin Church** has been a site of Christian worship for well over a thousand years, with the present church dating from about circa 1300. For

hundreds of years before this, possibly dating back to before 800 AD, a burial ground existed on the site, as evidenced by the raised churchyard. The Church has a Parochial Church Council and a regular Sunday service is held. The Churchyard remains open and is available for burials. It attracts many visitors from UK and overseas due to its historic interest.

- 6.19 **Staverton CE Primary School** is a voluntary controlled school which caters for boys and girls from 4-11 years of age. It presently has approximately 100 children on the roll (January 2017). In August 2014 the school became an Academy with the Peterborough Diocese Education Trust. The school itself serves the communities of Staverton, Hellidon and Catesby. The children from these villages attend the school along with a number of pupils from outside these areas.
- 6.20 The Parish Questionnaire identified a desire amongst the community to retain The Countryman, which is the only pub in Staverton, and Skylarks Café & Farm shop (which is now closed). The Countryman is used by the community but unfortunately the café has closed. In light of the current climate of villages losing their shops and pubs, which are disappearing at an alarming rate from the rural landscape this was a very positive response.
- 6.21 Staverton Village has for many years had a red K6 **Telephone Box** bearing the crest of Queen Elizabeth II, which is sited in Manor Road. The Telephone box whilst rarely used is viewed as not only an essential emergency communication facility, but also as an iconic feature of our traditional village. In response to a consultation undertaken by Daventry District Council regarding the intended removal of this telephone box by BT, representations were submitted from both Parishioners and the Parish council in support of maintaining this facility. Daventry District Council has subsequently granted it Grade 2 status as a building of historic importance, and it will therefore remain in place.

Policy SC1 Protection and Enhancement of Local Community Assets and Recreational Facilities policy

The Demolition or change of use requiring planning permission of community facilities in the Neighbourhood Plan area will only be supported where the following can be demonstrated:

- a The proposal includes alternate provision, on a site within the locality, of equivalent or enhanced facilities. Such sites should be accessible by public transport, walking, cycling and have adequate car parking.*
- b Satisfactory independent evidence is produced that demonstrates over a period of at least twelve months that there is no longer an economic and social justification/demand for the facility.*
- c That the proposal would be of benefit to the local community and would outweigh the loss of the existing facility*

Community facilities include but are not limited to:

Playing Field/Braunston Lane
St Mary The Virgin Church

Daventry Road Allotments
Staverton C of E Primary School

Village Hall
Countryman Public House

SC2 Housing (inclusive of affordable housing and local connection) policy

6.22 Policy Background & Summary

Engagement throughout the preparation of the plan indicated a strong desire by the local community to maintain Staverton as a rural village, preserving its character, environment and heritage. Similarly, the majority agreed that there is a need for new housing and that any new housing should enhance and compliment the form and character of the village.

6.23 Staverton Parish had a population of 468 in the 2001 census reducing slightly to 458 in the 2011 Census.

6.24 Neither the West Northamptonshire Joint Core Strategy or Daventry District Council set a housing requirement for Staverton Village. The scale of housing required within the West Northants Joint Core Strategy is detailed in Table 3:-

Table 3 - Housing required within West Northants Joint Core Strategy	
Overall Requirement for Daventry District	12,370
Daventry Town	4,260
Daventry Rural Areas	2,360
Northampton Related Development Area	5,705

6.25 The housing requirement for the rural area has been met and as at 1st April 2017 this has been exceeded by 520 dwellings”.

6.26 The Housing Need Analysis generated from the questionnaire indicated there was a mix of house types and sizes required for future housing up to 2029: 73% of those that expressed a need for future housing, indicated that flats/bungalows and 1-2 bedroom dwellings would be needed in the future.

Table 4 – Housing Need Analysis from Parish Questionnaire		
No	Description	Percentage
1	Flat	7%
7	Bungalows	46%
2	1-2 bedroom	13%
3	3 – 4 bedroom	20%
1	Affordable	7%
1	5 bedroom	7%
15	TOTAL	100%

6.27 Daventry District Council undertook a Parish Housing Needs Survey in April 2017 which identified a need for 17 properties. The Staverton Housing Need Statement 2017 identifies how a housing need of 15 properties has been determined for the plan period.

- 6.28 Staverton is a small village with few facilities but a distinct charm, character & cohesive community. It is clear that residents of Staverton are anxious that those who want to maintain a traditional way of Village life should be able to do so. Existing residents felt that we must act as 'guardians' of our village to ensure that we are not forced to lose the right to a village lifestyle, by speculative development proposals by Developers. It is strongly felt that inappropriate development would lead to a loss of Village identity, i.e. not being part of a specific cohesive community.
- 6.29 There is a limited amount of available land within the village confines therefore the possibility of including preferred sites for development within the plan was explored, detail of which can be found in the Staverton Site Assessment Statement 2017. However, following a consultation exercise on the 18th November 2017 and ascertaining that opinion is genuinely openly divided on the question of whether to include sites within the plan, due to there being a majority in favour of no sites it was decided to progress the plan without naming sites. This decision was underpinned by receipt of a petition. As there is insufficient land available within the confines, the plan therefore allows for some small scale development immediately adjacent to the village confines, in order to satisfy the Housing Need.
- 6.30 Daventry District Council in November 2017 commenced a consultation exercise in relation to its Settlements and Countryside Local Plan (Part 2), which proposes to include an updated settlement hierarchy.
- 6.31 For this purpose the SNDP, up until the Local Plan Part 2 is adopted, have worked on the basis that our current designation i.e. restricted infill would remain. As part of the revision of the Settlements and Countryside Local Plan (Part 2) Staverton has been proposed as a Secondary Service Village at the higher end of the hierarchy.
- 6.32 Consequently as the policies for the plan were produced they were crosschecked against the emerging Settlements and Countryside Local Plan (Part 2) plan to ensure there were no conflicting positions. The starting point for establishing the village confines (Map 5) was the Saved policies of the Local Plan, which sets out the current method for defining confines for restricted infill villages and supporting text to Policy HS22.
- 6.33 The following defines the extent of the village confines as published in Policy HS22:
- Buildings, curtilages and open spaces which are contained and visually separate from the open countryside that are clearly part of a network of buildings that form the village, but refer to point 2 - exclusions) below regarding gardens
 - Land with planning permission for built development
 - Allocations for built development in the local plan or a neighbourhood development plan
 - Boundaries should include the entire part of a dwelling house and attached outbuildings

Policy SC2 Housing (inclusive of affordable housing and local connection) policy

Planning permission will be supported within the village confines for the amount of housing as defined in the Staverton Housing Needs Statement 2017 and limited to the number required to satisfy that need.

New housing development in Staverton Parish shall be located within or directly adjacent to the village confines, subject to the following criteria: -

- a Be of an appropriate density in relation to the immediate surroundings*
- b Ensures appropriate and safe access can be achieved*
- c Is of a high quality design and is in keeping with the immediate surroundings, environment and rural landscape*
- d Demonstrates a contribution to the delivery of an appropriate mix of dwelling types and sizes including affordable housing, to meet the needs of all sectors of the community.*
- e Ensures appropriate parking is provided on site*
- f Is in keeping with the rural character of Staverton village*

Map 4 - Village Confines

SC 3 Access policy (inclusive of footpaths, cycle ways, bridal ways & connectivity)

6.34 Policy Background & Summary

The SNDP seeks to support the retention and the creation of transport systems in accordance with the residential character of the Parish. These includes any measures to improve car parking, and that maintain adequate access for public transport and emergency vehicles.

Braunston Lane Bridle Way

6.35 The West Northants Joint Core Strategy highlights the importance of improving accessibility in rural areas.

The location and nature of the Parish results in the primary form of transport being private cars, vans and motorcycles. Only a small proportion of the community utilise the bus service that goes through the village.

6.36 There is a low-floor bus service between Daventry-Staverton-Southam-Leamington-Southam-Banbury, operated by Stagecoach in Warwickshire from Monday to Saturday. There is also a bus service from Daventry which connects to Northampton & Rugby as well as the County connect service. The Parish Council will work with and encourage providers of public transport to provide as full a service as is needed, to support the future development in the village.

6.37 There are regular train services between Northampton/Long Buckby/Rugby and London/Euston/Milton Keynes & Birmingham. Main line connections can be made at Northampton/Long Buckby/Rugby & Banbury.

6.38 Some of the highest traffic growth in recent years has been on routes in rural areas, with increased congestion having a detrimental impact on villages. The volume and speed of the traffic passing through the village on both the old and new Daventry Road (A425) is considered to be an issue, with traffic speeds in excess of the 30 miles per hour limit often being raised as a concern.

6.39 Parking is also an issue in some parts of the village, especially near the school at the beginning and end of the school day. Therefore appropriate solutions which remedy this issue will be supported.

6.40 Traditional traffic management, such as signing and bollards may detract from the overall character of the village, therefore different approaches for limiting traffic are required. Actions that would make the village a more attractive and accessible place for pedestrians and cyclists are favoured, with residents keen to see measures to promote safe roads and footways and discourage through traffic.

Policy SC3 Access policy (inclusive of footpaths, cycle ways, bridal ways & connectivity)

Proposals for improvements in road safety measures (especially around the vicinity of the local Primary School), traffic management and the provision of improvements to public transport will be supported where they are in keeping with the character of the village, and are included within the DDC CIL list. Examples of which are included but not limited to the list (a) to (f) below

- a Traffic calming measures
- b Pedestrian priority schemes
- c Reduction in speed on both the old and new Daventry Road (A425)
- d Retain and increase public and community transport to and from the village
- e Support a School Travel Plan in order to reduce any traffic congestion from any future development in the village.
- f Proposals for improved linkages and accessibility of Staverton to the surrounding areas

PE 1 Protecting and enhancing the landscape and character policy

6.41 Policy Background & Summary

Staverton lies in the South-West of Northamptonshire England, it is approximately 2 miles West of Daventry, 8 miles East of Southam, and 15 miles East of Leamington Spa. The Parish straddles the A425 road from Daventry to Leamington.

6.42 The ground rises over 100metres (328`) across Staverton Parish, from around 120M (400`) above sea level where the A425 continues North West into Warwickshire, to some 222 Metres (728`) at the summit of Big Hill to the South.

6.43 Arbury Hill, part of which lies within Staverton Parish, the highest point in Northamptonshire at 225M (738`) is around 1.5 miles to the South West of the village. On its summit there is evidence of an Iron Age hill fort of an unusual square shape. These hills define a significant national watershed where oddly streams that leave the Staverton side of Big Hill and Staverton Clump heading east toward Daventry, join the Leam then into the Warwickshire Avon, flow on into the Severn, then ultimately into the Bristol Channel on the west coast of England, and streams leaving Big Hill to the West soon contribute to the Nene, which also rises within the parish, flowing right through Northamptonshire, ultimately into The Wash on the opposite, eastern side of the country.

6.44 Also, around 3 miles to the South West, within these hills near the village of Hellidon – itself part of the Staverton School catchment area, the river Cherwell has its source. The Cherwell seeks yet a different route to the coast – South then via the River Thames, onward to the North Sea in the South East.

6.45 The 88 mile Jurassic Way, which guides the long walk from Banbury to Stamford, follows a route through Staverton. The much shorter Three Rivers Ramble Circular Walk, passing near the source of the rivers Nene, Leam and Cherwell, dips in and

- out of the Parish and the Nene way if started from the river's source, provides Staverton with yet another opportunity for walkers to find adventure.
- 6.46 The Parish is predominantly rural in character as defined in the Environmental Character and Green Infrastructure Suite 2007
- 6.47 Staverton owes much to its farming heritage. The landscape bears the imprint of changes over many centuries and today's farmers play a crucial role in its preservation, even if they now form only a small part of the working population. Much land is under the plough for cereals, animal feed and more recently for green energy supply.
- 6.48 Grassland, grazed mainly by sheep and a few cattle, is still a distinctive landscape feature. Horses are kept for racing or recreation, but the pig is conspicuous by its absence, no longer kept by a family to be slaughtered and preserved for winter meat.
- 6.49 There is a wide variety of both flora and fauna in the parish. Huge ash, oak and beech, horse chestnut, sweet chestnut, lime and a variety of conifers. Silver birch and rowan are few in number with yew largely confined to the churchyard. Elm is struggling on in the hedgerow a mere remnant of its dominant place both as a feature and the resource of centuries past.
- 6.50 Wild flowers abound, with the primrose and cowslip a joy to find unexpected when walking. In the woods early in the year the delicate wood anemone and otherworldly flush of bluebells can saturate the senses. The miniature scarlet pimpernel, buttercups, daisies, celandines, clover, wragged robin, red and white campion, marsh marigolds, the list goes on. The hedgerows deliver sweet spring leaves followed in turn by blossom and fruit. Gathered and used to make wine, jams and preserves, the local countryside offers much.
- 6.51 Many Pipistrelle bats are present at dusk, and feed around the mature sycamore trees. Foxes are both friend and foe. Keeping rodents in check but choosing chicken when available. Being top of the food chain has it's pressures. The badger too is abundant locally again eating the best of what is available, not always to the delight of others. Rabbits, weasels, stoats, rats, mice, voles, moles are all found locally, along with grass snakes and the occasional adder. The wealth of birds seen in and around the Parish at various times of the year include Swifts and Swallows, Song thrushes, Fieldfare, Goldfinches amongst many visitors, with long tailed, blue, great and coal tits busy all year round. Both Greater spotted and Green woodpeckers can be seen and heard, with Kestrel, Buzzard and the occasional Red Kite to be seen checking the larder. Rooks, Crows, Wood Pigeon, Blackbirds, Sparrows, and Wrens all contribute to the day to day experience of living in the Parish with few demands made in return.
- 6.52 The whole of the Parish falls within Daventry District Council's Special Landscape Area designation. This is particularly relevant for any development proposals outside of the village confines. 67% of the respondents from the Parish Questionnaire felt conserving the Special Landscape Area and protecting the local wildlife and habitats were the two top priorities for the village.

- 6.53 The Parish has a Grade I listed church, 25 Grade II listed buildings, one pocket park, one registered village green and a playing field.
- 6.54 The residents, Parish Council and SNDP committee consider it highly important to protect the setting of the village and surrounding rural character of the landscape. The Parish Questionnaire specifically identified that there was a need to maintain the rural character of the village. To preserve this rural character there is a need to ensure a separation of the various settlements between Staverton and neighbouring urban developments. Based on the information gathered and, using Daventry District Council templates along with knowledge of the local area, the following were identified as key important views to be included within the Staverton Neighbourhood Development Plan

View	Reason	Value
<p>1. Looking West from Public Footpath FD1 at the side of Staverton Hall, Manor Road</p>  <p>Looking across the Leam Valley into Warwickshire and beyond</p>	<p>Staverton sits on the edge of a limestone escarpment, giving uninterrupted panoramic views over Rugby, Southam & Coventry, extending for over 40 miles in good conditions. (on a clear day, as far as the Malvern hills).</p> <p>This view is important as it is also observed from the 'Jurassic Way' footpath. This footpath stretches for over 140km from Stamford to Banbury.</p>	<p>The footpath provides recreational facilities for many residents and visitors to the village. This in turn generates revenue for local businesses e.g. pub, farm shop etc.</p>

View	Reason	Value
<p>2. Looking North West from Public Footpath FD6, when entering the fields at the bottom of Well Lane</p>  <p>Looking down a tributary stream valley which feeds into the River Leam, the County boundary between Northamptonshire and Warwickshire</p>	<p>A rural side valley, leading from the village above, looking down into the Leam Valley and surrounding hills.</p> <p>This is an important view as the valley extends down to the Warwickshire Leam Valley Wildlife Trust situated to the East of Leamington Spa.</p> <p>The trust promotes the environmental importance of the Leam valley and surrounding areas.</p>	<p>Walkers and ramblers enjoy the view from the ancient pathway which is one of the last remaining Drover's routes. Attracting visitors brings additional income to local businesses.</p>

View	Reason	Value
<p>3. Looking North West from Public Footpath FD8, standing at the end of The Orchard behind The Hatch</p>  <p>Looking over the paddock and the characterful cottages towards the rolling countryside and Leam Valley beyond</p>	<p>Excellent views across the Leam valley towards the settlement of Flecknoe on the far side of the valley.</p> <p>This view is important due to the elevation of Staverton. The village stands at over 170mtrs above sea level and commands unrivalled views from the limestone escarpment across</p>	<p>A well-used publicly accessible viewing point providing locals and visitors with a historic window into Staverton past with views of early 17th century thatched farmhouse cottages.</p>

View	Reason	Value
<p>4. Looking South West from Public Footpath FD12, at the junction of Daventry Road and Catesby Road opposite The Countryman Public House</p>  <p>Looking across the open Northamptonshire farmland towards the Great Central Railway viaduct at Catesby</p>	<p>The important view from the head of footpath HD12 towards the 12-arch blue brick viaduct of the Great Central railway line nearby Catesby as it crosses the infant river Leam.</p> <p>First opened in 1898 as part of the Great Central's 'London Extension', its construction benefited from the mechanical advantages of steam navvies.</p> <p>It is an elegant and striking structure, boasting vast but gently-graded approach embankments.</p> <p>From this point, locals and visitors can also see Arbury Hill. At 225 metres, this is the highest point in all of Northamptonshire.</p>	<p>Steam train enthusiasts far and wide are attracted to walk this footpath to further view this historic edifice.</p>

View	Reason	Value
<p>5. Looking North West from the main A425 Daventry Road roundabout at the Junction of Badby Lane</p>  <p>Looking towards the beautifully preserved Norman church and churchyard which contains Anglo Saxon remains</p>	<p>This is important as it offers excellent views of the Grade 1 listed St Mary the Virgin Church.</p> <p>A place of Christian worship has stood on the site for well over a thousand years. At 170 metres, it sits at the highest altitude of any church in Northamptonshire with uninterrupted views in all directions.</p> <p>The original Anglo-Saxon church was extended in the 13th century to incorporate a Norman tower. However, the graveyard dates back to the 9th century.</p>	<p>It attracts visitors worldwide thus adding to the local economy e.g. local hotels and B&B.</p>

View	Reason	Value
<p>6. Looking East from the churchyard of St Mary the Virgin in Church Street</p>  <p>Looking towards The Clump and Big Hill situated due East of the village</p>	<p>This view is important as it shows the nearby hill known locally as 'The Clump'.</p> <p>At an altitude of more than 700 feet, and topped with a tree lined summit, it is reliably said that if you travel East from the summit, the next land you encounter at that altitude will be the Ural Mountains in Russia.</p>	<p>Home to a large array of indigenous wildlife enhancing the natural environment.</p>

Policy PE1 Protecting and enhancing the landscape and character policy

Planning permission will be supported within the village confines if It does not adversely affect the character of the local landscape

And proposals demonstrate account has been taken of the following topography:

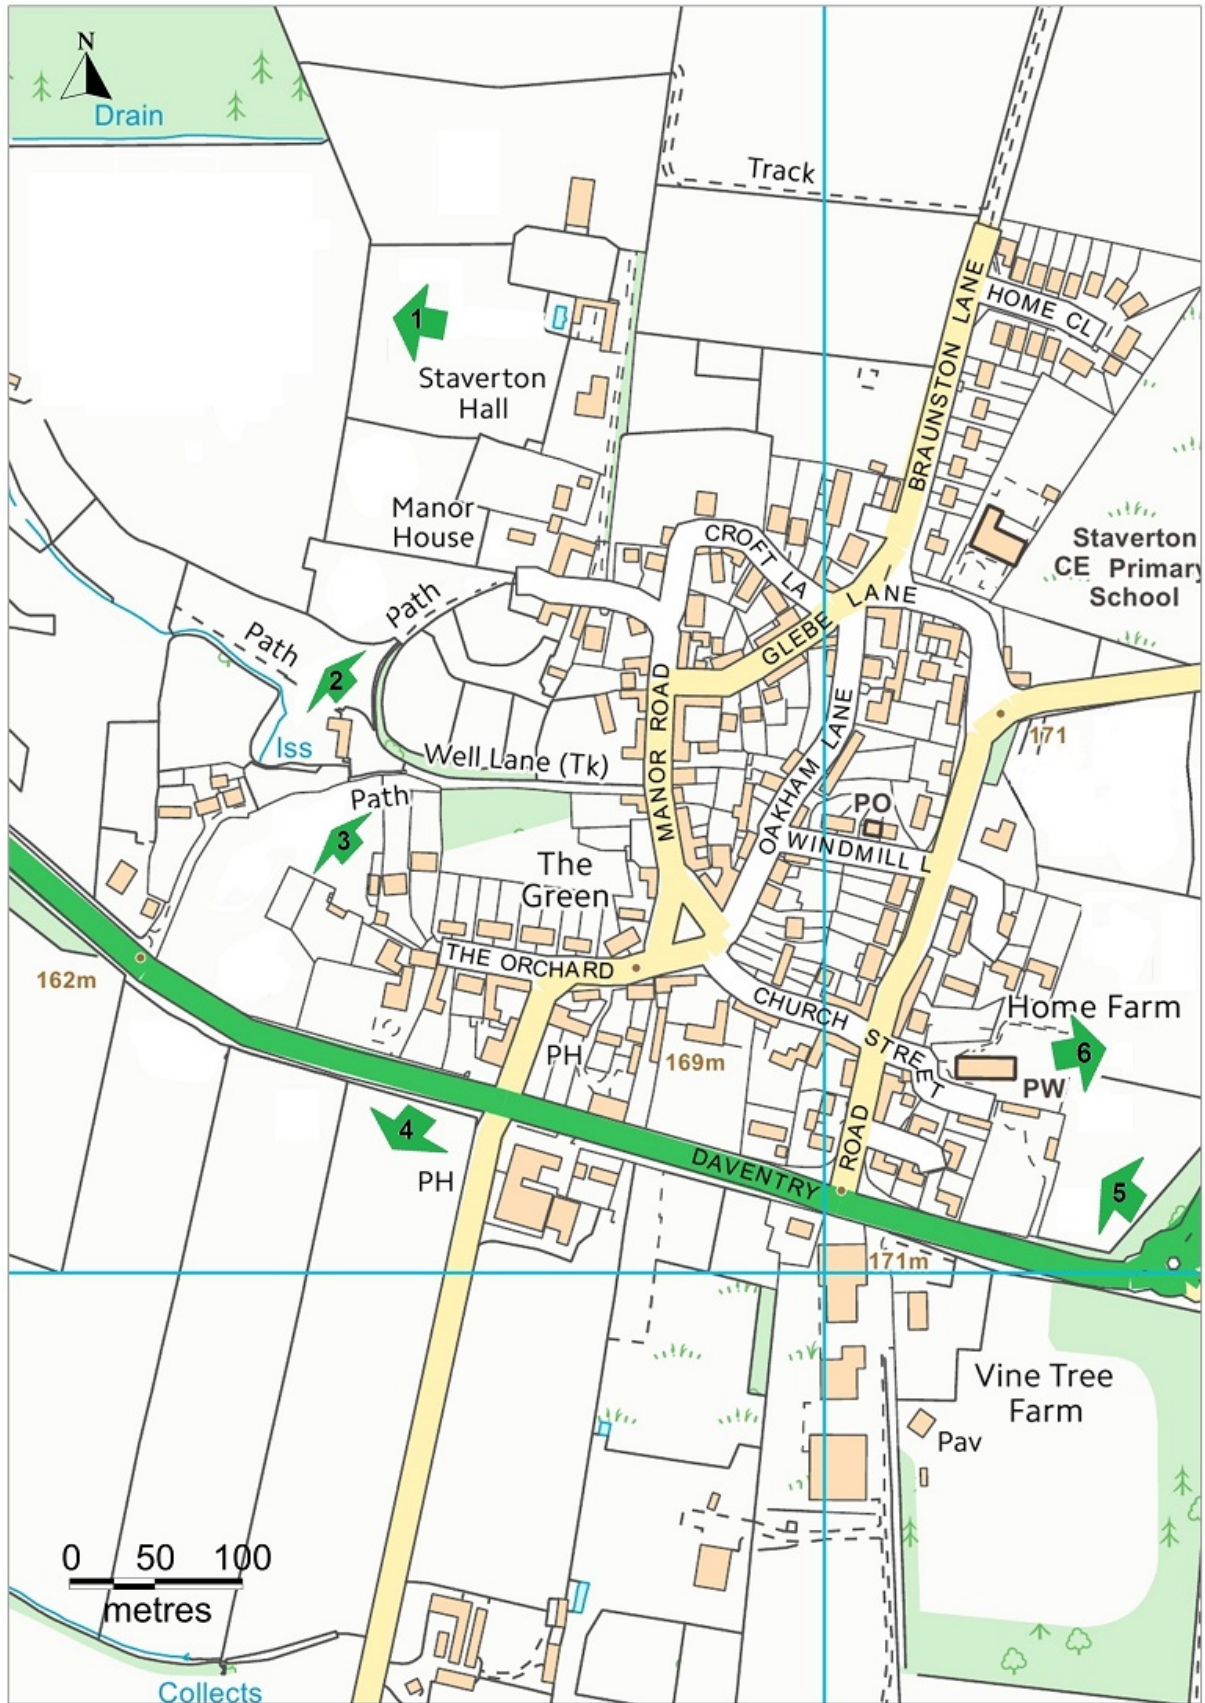

- View (1) Looking West from Public Footpath FD1 near Staverton Hall**
- View (2) Looking North West from Public Footpath FD6, at the bottom of Well Lane**
- View (3) Looking North West from Public Footpath FD8, behind The Hatch**
- View (4) Looking South West from Public Footpath FD12, opposite The Countryman Public House**
- View (5) Looking North West from the main A425 relief road roundabout**
- View (6) Looking East from the St Mary the Virgin church**

And Conserve traditional farm buildings through continued and appropriate new uses. Repairs and alterations should use local materials and techniques wherever possible.

And Include noise attenuation measures and visual screening of transport corridors such as main roads and rail routes where there is an adverse impact.

And Ensure that any lighting is purposeful and does not generate intrusive and unnecessary spillage, which would cause light pollution.

PE 2 Open/Green Spaces policy

6.55 Policy Background & Summary

Staverton Parish has a network of footpaths and open spaces, linking facilities around the village, open countryside and long distance footpaths. The top two activities undertaken by residents as identified in the Parish questionnaire were Walking/Rambling (42%) and Dog Walking (36%).

6.56 In terms of protecting the existing open spaces in the village 74% of residents felt the retention of Open Spaces was very important.

6.57 The National Planning Policy Framework (NPPF) advises at paragraph 76 that “local communities through local and neighbourhood plans should be able to identify for special protection green areas of particular importance to them. By designating land as Local Green Space communities will be able to rule out new development other than in special circumstances.

6.58 Paragraph 77 of the NPPF advises that ‘the Local Green Space designation will not be appropriate for most green areas or open spaces. However, the designation should only be used:

- Where the green space is in reasonably close proximity to the community it serves
- Where the green area is demonstrably special to a particular local significance e.g. because of its beauty, historic, recreational value tranquillity or richness of its wildlife
- Where the Green area concerned is local in character and is not an extensive tract of land

6.59 The table below sets out how each of the proposed protected local green spaces meet these criteria. In addition the Local Green Space nomination form has been completed and approved by Daventry District Council (Table 5).

Table 5 – Protected Green Spaces

Ref	(1)
Name	Playing Field
Location	Braunston Lane

The green space is in reasonably close proximity to the community it serves

The green area is demonstrably special to a particular local significance e.g. because of its beauty, historic, recreational value tranquillity or richness of its wildlife:

Description and purpose - The Recreation Ground is situated at the edge of the village.

It was acquired by Staverton Parish Council some years ago and is used for sport and recreational purposes including children’s play equipment and a public football pitch.

Seating is also provided for public use.

It is occasionally used for public events e.g. The Queens Diamond Jubilee celebrations.

Statutory or local designation - The Recreation Ground is owned and held in trust by Staverton Parish Council. It is the only public play and recreation area in the parish. It is owned by the Parish Council but does not have statutory or designated status.

Accessible by the community - The Recreation Ground is situated on the edge of the village and is accessible to all Parishioners and members of the general public including children from the local school.

How the nominated green space meets the three NPPF criteria –

Reasonably close to the community it serves

The Recreation Ground is situated on the edge of the village in a residential street. It faces on to and is adjacent to village housing. It is adjacent to the village confines but not situated within it.

How it is demonstrably special to the local community

This site is the only public play area within the village. It is covered by a covenant to protect it. It is used by members of the community and public, especially children from the local school each afternoon.

It is local in character and not an extensive tract of land

It is bounded on two sides by village houses. The remaining two side are set to pasture and crops. However, there is an established hedge between it and the adjacent land.

Ref (2)
Name Village Green
Location The Green

The green space is in reasonably close proximity to the community it serves

The green area is demonstrably special to a particular local significance e.g. because of its beauty, historic, recreational value tranquillity or richness of its wildlife:

The Green area concerned is local in character and is not an extensive tract of land

Description and purpose - The parish notice board is situated on the village green. All official notices are attached to it each month.

The reverse side is used to advertise all other events etc.

Statutory or local designation - Staverton Village Green is registered as a village green with the Department of Environment, Food and Rural Affairs: Land Management and Recreation.

Accessible by the community - The village green is situated in the centre of the village and is accessible to all parishioners and members of the general public. It is accessible at all times. There are no fences or gates. It is adjacent to the historic Jurassic Way footpath which runs alongside. There is a marker post on the village green indicating the footpaths route.

How the nominated green space meets the three NPPF criteria –

Reasonably close to the community it serves

The village green is situated at the centre of the village. It is within the village confines.

How it is demonstrably special to the local community

It is designated as a village green and is occasionally used for functions (e.g. Easter Egg rolling). There is public seating on the village green.

It is local in character and not an extensive tract of land

It is bounded on all sides by village roads and houses. There are no other adjoining tracts of land.

Ref	(3)
Name	Pocket Park
Location	Junction Glebe Lane/Daventry Road

The green space is in reasonably close proximity to the community it serves

The green area is demonstrably special to a particular local significance e.g. Because of its beauty, historic, recreational value tranquillity or richness of its wildlife:

Description and purpose - The Pocket Park is situated at the junction of Glebe Land and Daventry Road.

It was acquired by Staverton Parish Council from Northamptonshire Highways using adverse possession. It is used for informal recreation and nature observation and as such, seating is provided for the public.

Statutory or local designation - The Pocket Park is registered as a pocket park with Daventry District Council / Northamptonshire Highways.

Accessible by the community - The Pocket Park is situated on the main road within the village and is accessible to all Parishioners and members of the general public at all times. There are no fences or gates. It is situated on the main entrance route into the village from the nearby market town of Daventry.

How the nominated green space meets the three NPPF criteria –

Reasonably close to the community it serves

The Pocket Park is situated on the main road into the village and has houses on three sides. It is within the village confines.

How it is demonstrably special to the local community

It is designated as a pocket park and is used by members of the local community and passing public, often making their way from the nearby De Veres hotel to the village pub.

It is local in character and not an extensive tract of land

It is bounded on three sides by village houses. There is a defined woodland copse separating it from the paddock behind.

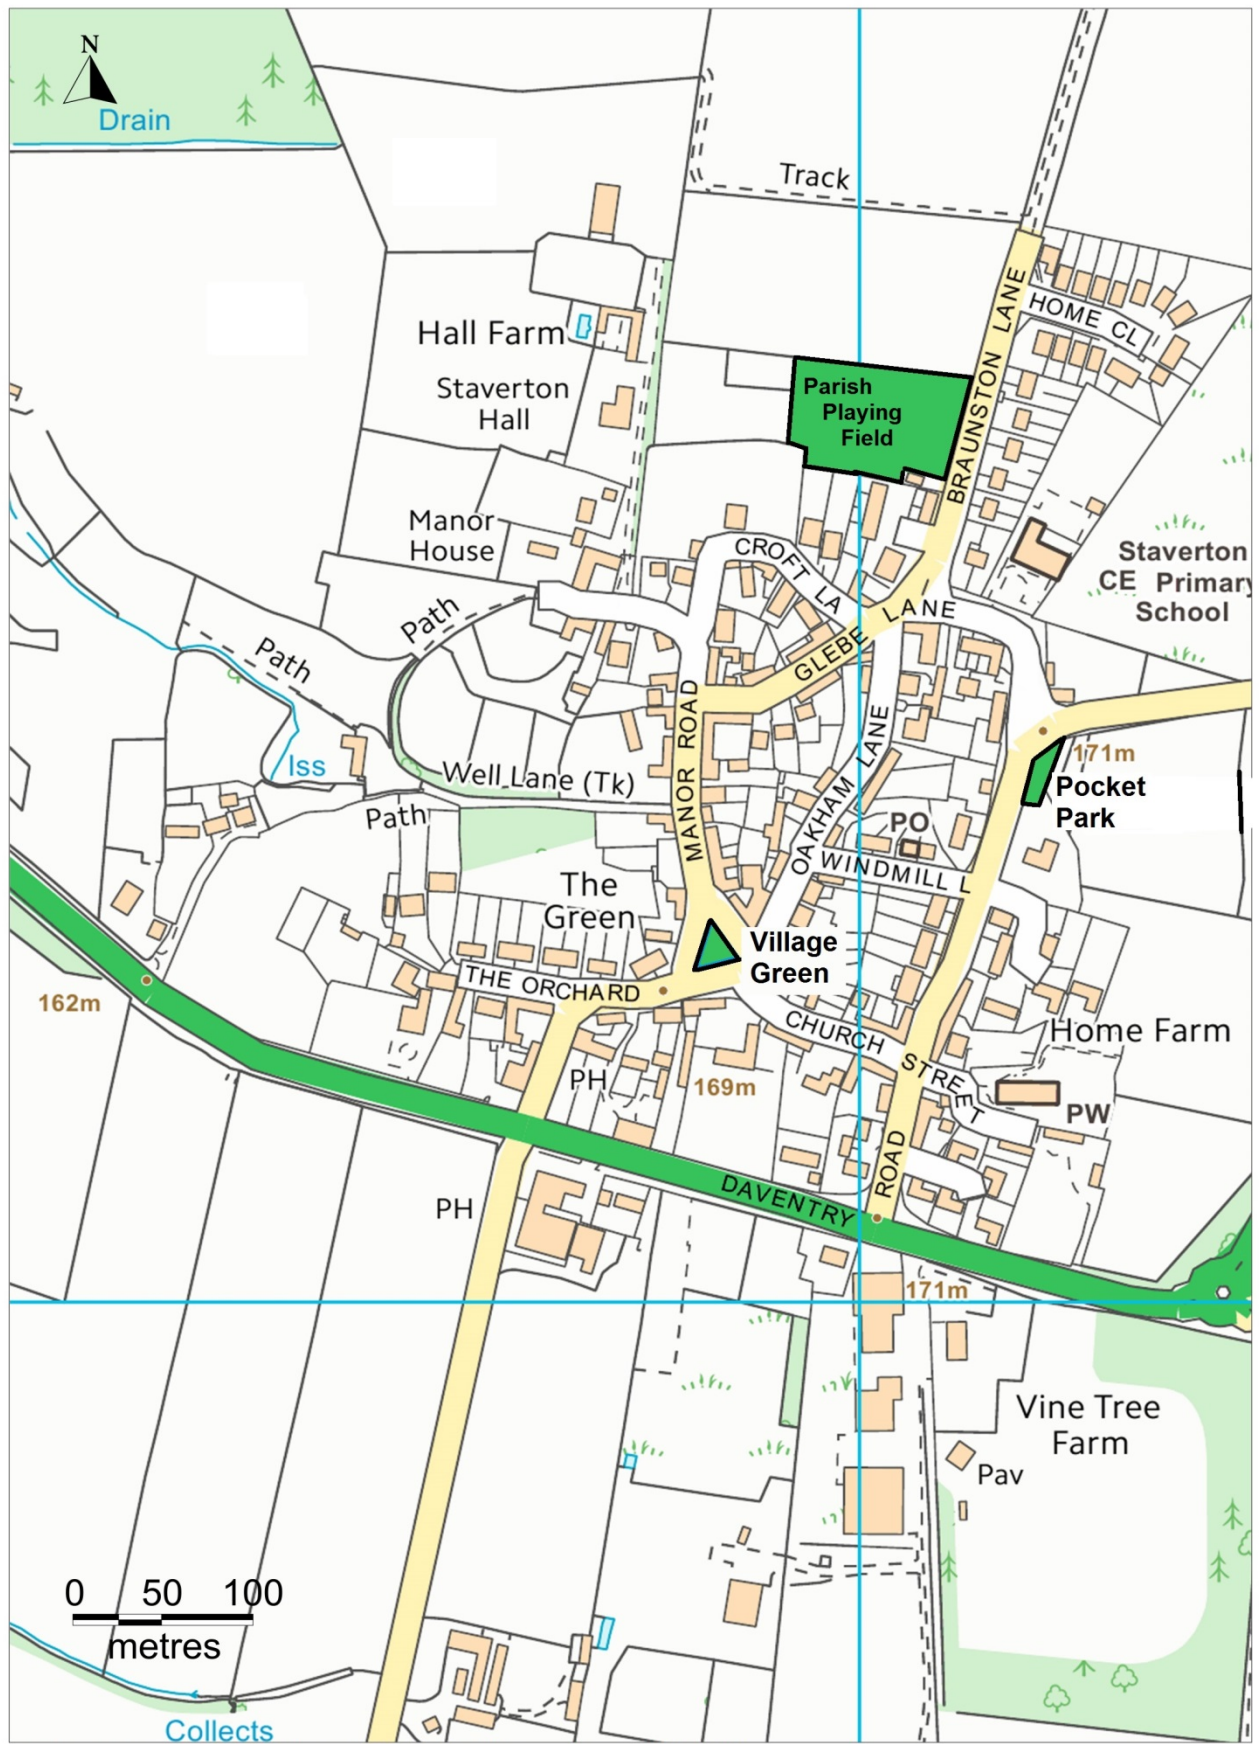

Policy PE2 Open/Green Spaces policy

The local Green spaces identified on Map 7 are designated in accordance with paragraphs 76 & 77 of the National Planning Policy Framework:

Playing Field
The Village Green
The Pocket Park

New development which impacts adversely on the function, openness and permanence of these sites will not be permitted unless it is beneficial to the community.

MC 1 DEVELOPMENT POLICY

6.60 Policy Background & Summary

This is a general policy which relates to all types of existing and new development that requires planning permission.

- 6.61 All new development will be expected to enhance the positive attributes of the village and local design features. Development will not be permitted where it has a detrimental impact on the character of the village/area in which it is located.

Policy MC1 Development Policy

New developments, alterations, or change of use to existing buildings within the village will be supported when they meet the following criteria, and other policies set down in this plan.

In assessing the suitability of sites for development proposals will be supported provided that:

- a The new housing development is located where it is contiguous with the existing built form*
- b Be small scale, limited to the Staverton Housing Needs Statement 2017 and proportionate to the size of the settlement*
- c Consideration has been given to the design, scale and detail of the proposal in relation to the immediately adjoining area, including streets and open spaces, and the attractive mixed character of the village as a whole so that it does not impact adversely on these characteristics*
- d The development will be of appropriate density within the context of the immediate surroundings*
- e Appropriate and safe access can be achieved as required by the Highways authority*
- f That the site will not adversely impact on residential amenity by reason of noise, nuisance or infrastructure*
- g The rural character of the village will be maintained*
- h The site is socially and environmentally sustainable*
- i There is an appropriate mix of tenure, type and size of houses*
- j Appropriate on-site parking commensurate with the size of property can be accommodated*

and Development outside the village confines will only be acceptable in:

- k Exceptional circumstances or where it is demonstrated that it is required to meet an identified local need*
- l If it does not result in the loss of existing services and facilities important to the sustainability of the settlement*
- m If it protects the form, character and setting of the village and areas of historic or environmental importance including those identified in conservation area appraisals*
- n If it protects the integrity of garden or other open land that makes an important contribution to the form, character and setting of the settlement*
- o If it is accessible by walking and cycling to the majority of services and facilities within the settlement*
- p If it protects the amenity of existing residents.*

- 6.62 The Daventry District Local Plan 1997 identifies Staverton as a Restricted Infill Village in Policy HS22.

- 6.63 Planning permission will normally be granted for residential development in the restricted infill villages provided that:
- It is of a small scale
 - It is within the confines of the village
 - The proposal is in keeping with the character and quality of the village environment
- 6.64 The draft (November 2017) Daventry Settlements and Countryside Local Plan Part 2 consultation document defines Staverton as a Secondary Service Village - These settlements have a more limited range of services, but still provide scope to meet some local needs for housing, employment and service provision;
- 6.65 As part of the plan making process a village confines map has been agreed with Daventry District Council, Map 4, page 28, to help provide clarity for decision making and reflect the role of Staverton being proposed to be at the higher end of the hierarchy.
- 6.66 The emerging draft consultation on Settlements and Countryside Local Plan (Part 2) for Daventry District proposes a hierarchy of settlements. The Spatial Strategy for Rural areas stipulates that development within rural areas will be guided by this hierarchy. Although this hierarchy has yet to be determined by Daventry District Council in the emerging Settlements and Countryside Local Plan, there is an assumption for the purpose of this plan that the current status of restricted infill applies.
- 6.67 Results from the Parish Questionnaire revealed that there was a clear view amongst respondents that development should be on a small scale, in keeping with the rural character of the village.
- 6.68 Photographs below show examples of recent appropriate infill development within the village:

Church Fields

Windmill Gardens

Old Daventry Road

Old Gardens

MC 2 Design of Development Policy

6.69 Policy Background and Summary

Staverton Parish Council considers it to be essential that the character of the village and the surrounding landscape should be retained.

Policy MC2 Design of Development Policy

All new developments should respond positively to the distinct character of the area and be of good design and quality. In seeking to protect and enhance the area, all development will be expected to take account of the following:

- a Traffic calming measures and the reduction in traffic speeds*
- b In any planning application the reduction of on-street parking should be an important factor. The loss of existing off-street parking will be resisted*
- c Historic stone boundary walls are a particular feature within the Village the loss of which will not be supported*
- d In the village centre the style of the streets, (terraced cottages fronting onto footways, two storey buildings, local stone and slate roofed structures) must be maintained*
- e The layout and style of developments should be sympathetic to that already existing in the locality*
- f A wide variety of building types and designs have been inherited over time and are now seen as harmonising well together in an attractive combination. The continuation of this sort of variety is desirable.*
- g Experience indicates that non-traditional building materials often blend in with the old, given the mellowing of time; (e.g.: thatch to slate to tile). While stone and slate should be preferred, therefore, other building materials are acceptable provided they harmonise with their immediate neighbourhood in colour and appearance and are not used in quantities which detract from earlier buildings.*
- h Modern designs incorporating the straight lines and sharp corners not found in older buildings can be a greater problem. Care also needs to be taken to ensure that the layouts of houses in any new streets developed fit in with the general character of the village.*
- i Terraced building represents a traditional and preferred method for less expensive housing.*
- j There should be suitable overall roof height restrictions having regard to the immediate locality.*

Community Projects

- 6.70 The majority of roads in Staverton (particularly the older part of the village) are narrow and unsuitable for large amounts of traffic, in particular Oakham Lane, Croft Lane, Windmill Lane, Church Street and Well Lane. Any development which would increase traffic on these roads will be resisted.
- 6.71 The entry to the village adjacent to the Countryman Pub is considered difficult and somewhat unsafe due to the quantity and occasional speed of traffic on the A425 in addition to being at the top of a 'blind hill'. Therefore Staverton Parish Council opposes any development which would exacerbate the current situation.
- 6.72 Staverton Parish Council will seek the following improvements to road safety, traffic management and public transport:
- Highway improvement schemes to promote the safety of pedestrians, cycle users and parking which was the highest priority in the questionnaire.
 - Traffic calming measures, pedestrian priority schemes and the reduction in traffic speeds on routes within or adjacent to the village confines as evidenced in the traffic survey undertaken in January 2018
 - Increasing public and community transport which was a theme that came through at the various consultation events
- 6.73 The Parish Council will work with and encourage providers of public transport to provide as full a service as is needed
- 6.74 Seek provision for sustainable transport measures through community projects:
- Pavements and cycle paths to enable residents of all ages and abilities to walk, cycle or utilise mobility vehicles safely from their homes to connect with existing footways, where available, in order to gain access to village services and facilities.
 - Provide where possible, and where funding and developer contributions allow, new pedestrian and cycle routes or improving existing village networks to serve new development
 - Continue to establishing or enhancing pedestrian and cycle routes within the villages:
